1Description2Metering Range3Single Button Operation4Tru-Target System5Weatherproofing6Compact SizeThe ProStaff 3 6x21 Laser Rangefinder from Nikon is a hunting accessory designed to measure the distance of targets up to 550 meters. Tru-Target Ranging technology is designed to accurately measure range in different terrains and weather conditions. The 6-fold increase is suitable for targeting at medium range. The LCD display and automatic power outage feature allow you to monitor and save battery life. The multi-colored optics, sealed weather enclosure and laser activation in one touch make this rangefinder a full-featured optical tool for hunting and other outdoor sports. Measure 11 to 550 yards down the range with a 0.5 yd increments reading. The one-touch activation button emits a laser. The automatic power outage service disables the laser after 8 seconds to save battery life. Measurement technology designed for precise range in different hunting and terrain conditions. The waterproof and fog-like body (except the battery chamber) is built to withstand light rain and humidity. Less than 6 inches long and weighing just 7 ounces, the ProStaff 3 fits into a cargo pocket or day pack, and can be worn on the belt without interfering with mobility. The Nikon Prostaff Laser Rangefinder can be implemented without any problems. You can customize this pocket equipment with a belt. Given the ease of use and portability, many customers have started to call it the best range search, and we see that this is not entirely untrue. While we have more important things to discuss in this Nikon Prostaff 3 Laser Rangefinder review, we can't ignore the beauty of a one-button operation that works like magic and gets the device on the go at the moment. You may think that we have already talked enough about the product. Really? Let's start our Nikon Prostaff 3 Laser Rangefinder review know and help you discover many other benefits of it. A well-known company like Nikon always maintains its quality, but with a high high But the Nikon Prostaff Laser Rangefinder is very affordable. The price of this convenient, as well as constructive rangefinder, is \$144.37, which is fairly moderate.2. PortabilityThe Nikon Prostaff 3 Laser Rangefinder review keeps the tools one of the main features that is portability. The range weighs just 6.3 ounces. This lightweight product does not take up much space in the bag and can be easily moved in your pocket. The battery is also preferable to most people because it weighs less.3. A user-friendly Alien Laser Rangefinder review mentions the ease of the exercise tool. One operation button made the rangefinder to measure quickly and accurately with a single button.4. PerformanceThe 6x increase and 18mm long eye relief is enough to produce a crystalline look. The 550-yard performance range allows you to hunt effectively. The Nikon Prostaff 3 Laser Rangefinder has a multi-volume optics that illuminates enough brightness. It has an uncluttered LCD too. All of these features allow the rangefinder to work flawlessly. The case and material of the Thin rangefinder design attracts the majority of users. Although it is lightweight, it is built of durable materials. The body is rubberized so that you can hold the grip. The Nikon Prostaff Rangefinder has created convenience for those who wear glasses. It has an adjustable rubber eyepiece.6. Waterfog proofThe body of a Nikon Rangefinder is free from the difficulties of rain. It's rain and fog proof. You can enjoy hunting in the rain as well. But battery-powered cameras are not waterproof. As a result, this can create a bit of irritation as you have to be careful in changing the battery during the rain. The final VerdictNikon Prostaff 3 Laser Rangefinder is an important product for those who wouldn't want to miss a perfect shot at 550 yards. It works properly and provides a high-resolution view of the image. You can tell that we have not listed enough flaws of this rangefinder. Well, a battery camera that is not waterproof is the only significant drawback of this product. However, you won't be dissatisfied with the battery life. We are already in the custody of the Nikon Prostaff 3 Laser Rangefinder review. We hope this review will help you gather the information you need about the Nikon Prostaff Laser rangefinder.
